As the demand for transportation facilities in Macao is great, exhibitors must not make any plan on receiving exhibits soon after the exhibition, since it may take over 5 working days for exhibits to reach Hong Kong or other destinations.
3. The volume / weight ratio for air cargo is 6:1 (i.e. 1 cbm = 166.7 kgs). The chargeable weight is based on the volume weight or actual weight which ever yields the greater.
4. The charges for sea / road cargo are based on 1 cbm or 1000 kgs whichever yields the greater.
5. All cargo must be sent with "Freight Prepaid" for inward movement. A 10% surcharge will be imposed for any shipment sent with "Freight Collect". For the return movement if freight charge is required to be prepaid at the port of loading, a 10% advance fee will be levied.

11. Relative to inbound shipments, there may be a lapse of time between the delivery of shipment(s) to the booth and the arrival of the Exhibitor's representative at the booth. Similarly, relative to out-going shipment(s), it is possible that there will be a lapse of time between the completion of packing and the actual pick up of freight from the booth for loading onto a carrier. It is understood that during such times the shipment(s) will be left in the booth unattended. Therefore, it is agreed that the Company and its sub-contractors are not liable for the loss of disappearance of, or damage to Exhibitor's freight after the same has been delivered to Exhibitor's booth, nor are the Company and its sub-contractors liable for Exhibitor's freight before it is picked up from the Exhibitor's booth for loading after the show. Consequently, all bills of lading covering outgoing shipment(s) submitted to the Company or its sub-contractors by Exhibitor will be checked at the time of pick up from the booth and corrected where discrepancies exist.
